

What makes Conestoga unique?

Experienced working on Military projects small and large with multiple buildings per project.

Over 300 resorts and campgrounds feature our camping log kits and commercial buildings, which include bunkhouses, bath houses, log stores and even log offices.

Our low maintenance logs have much less warping, twisting, shrinkage and checking when compared to all other log homes.

All our project consultants have over 10 years of experience with the company and are located at the factory.

We're the only log cabin kit company that can produce 28' log lengths without joints, which provides the most air and water tight system.

We utilize the most "green" process in the log cabin kit industry.

Over 30 years manufacturing and building log cabin kits and log home kits to all 50 states and worldwide.
